ALEX RIVERA
Software Engineer | Full Stack Developer
alex.rivera@example.com | github.com/alexrivera

PROFESSIONAL SUMMARY
Enthusiastic Software Engineer with experience developing scalable web applications.
Proficient in modern JavaScript, React.js frontend development, and Node.js backend services.
Experienced in building RESTful APIs, handling MongoDB NoSQL databases, and managing code with Git.

TECHNICAL SKILLS
· Languages: JavaScript (ES6+), Python, HTML5, CSS3
· Frontend: React.js, Redux, Tailwind CSS
· Backend: Node.js, Express.js, REST API design
· Databases: MongoDB, MySQL
· Tools & Version Control: Git, GitHub, VS Code

PROJECTS
E-Commerce Web Platform
· Developed responsive UI with React.js and Tailwind CSS.
· Implemented secure RESTful APIs using Node.js and Express.js.
· Integrated MongoDB for high-throughput product catalog queries.
· Maintained clean version control workflows using Git and GitHub.
